Farm Guidelines :

- Walk and stay together with your group.
- No food or snacks except in designated areas (i.e. Visitor Center and Picnic Tables)
- Please help us ensure that students use quiet, calm voices and slow movements around farm animals.
- Please silence or turn cell phones to vibrate during your field trip experience.

Get your group thinking! :

- Use one of your five senses to observe the farm. What do you notice?
- What did you think of that _____ (ox, cabbage, garden, house)?
- What does this remind you of?
- How does this make you feel?
- Can you connect this to anything you have learned in school?
- How is this different from what we do today?
